The goal of the Dental Management Coalition for all participants is to improve patient care and stay abreast of changes in dental healthcare practices and management. In order to provide a balanced approach to educational activities, all speakers must inform participants of any affiliation or financial interest with manufacturers of any commercial products that may be perceived as creating a conflict of interest. This policy is intended to make you aware of the faculty's interests and will allow you to form your own judgments about the materials and/or procedures in each course.
